

# Truck on down to the International Paper Modelers Convention

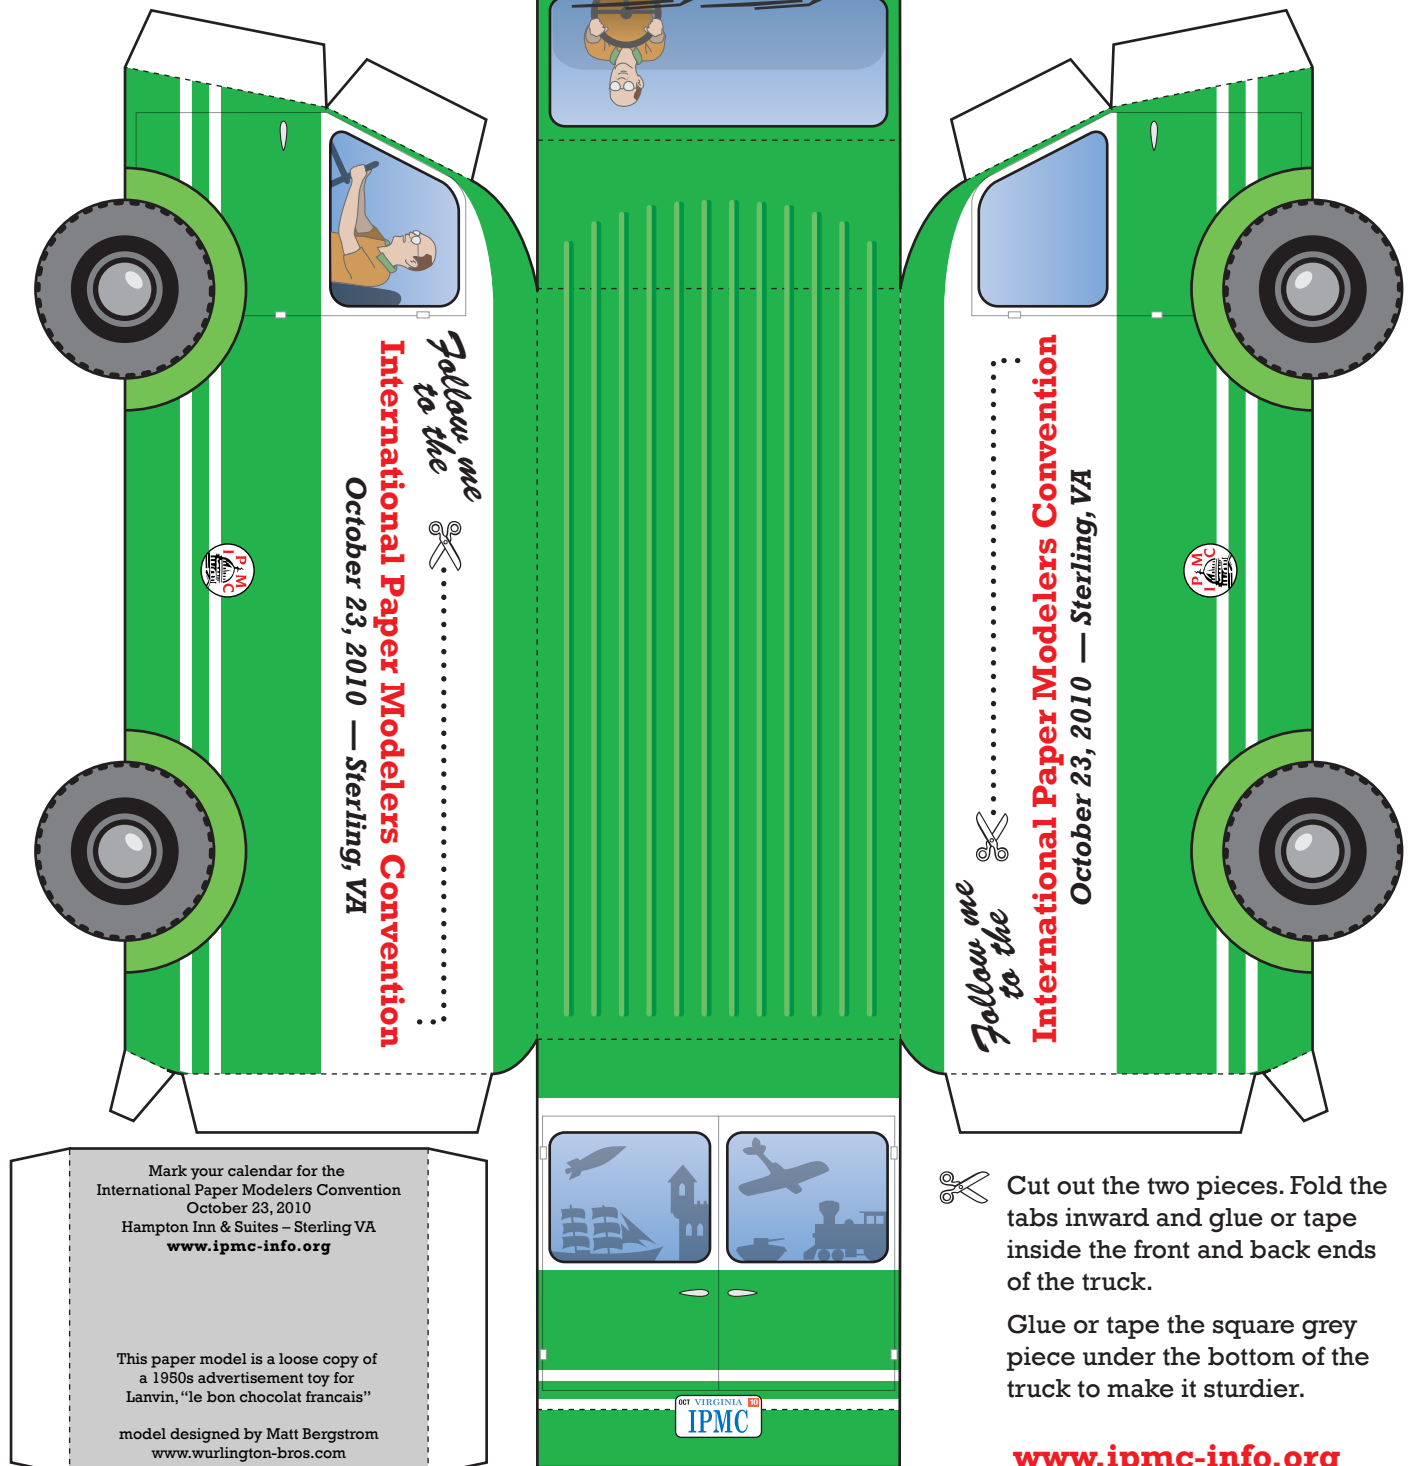

The annual paper model event is taking place at the Hampton Inn in Sterling, Virginia on October 23, 2010. Stop by to see amazing paper creations and meet other paper modelers, designers and collectors.

This year's special model theme is "wheeled vehicles," so why not try building this mini delivery van yourself?

finished model

✂ Cut out the two pieces. Fold the tabs inward and glue or tape inside the front and back ends of the truck.

Glue or tape the square grey piece under the bottom of the truck to make it sturdier.
